Covid Testing Grievance

The bargaining committee filed a group grievance on the excessive number of negative tests that SaskPolytech expected from those employees who chose not to vaccinate or chose not to disclose their vaccination status in response to the COVID-19 direction from the employer. As part of the settlement sought, we are requesting reimbursement for those members who were paying for these tests. Therefore we are requesting that members who are testing due to Covid and paying for such tests, please ensure that you retain all receipts since January 3 and send copies of your receipts to PSBUAdmin@sgeu.org.
