

SGEU SIAST Academic and Professional Services Bargaining Update
August 29, 2011

The recent contract settlements in Saskatchewan have all exceeded the 5.5% mandate.

SIASST's final offer of 5.5% over three years remains the same, and we have not been able to get the parking issue resolved.

We are currently working on an initiative that may result in further talks with the employer. If this is not successful, we will move to job action.

The summer mailout that you received from SGEU contains your bargaining committee's final offer and the employer's final offer. If you did not receive this mailout, you can view these documents on our website www.acad.sgeu .

At the campus level, within the next few days, picket captains and strike committees will begin to organize for job action.

In Solidarity,
The Bargaining Committees
